SUMMARY

A results-driven Web Developer with 2.9 years of hands-on experience in designing and developing web applications. Currently serving as an Associate Software Engineer at Vowel Digital Adworld Pvt Ltd. I hold a Post Graduate Diploma in Advanced Computing (PG-eDAC) from Sunbeam, Pune (CDAC), completed in 2021. In addition to web development, I possess skills in photo and video editing, creating engaging digital content using various multimedia tools. I am also enhancing my expertise in dynamic web application development, specifically focusing on ASP.NET Core 8 and Entity Framework Core, utilizing Visual Studio 2022 through Udemy coursework.

SKILLS

Web Tools / Framework- ASP.NET Core 8, Entity Framework Core, ASP.NET MVC
Programming Language- C#
WebApp Design- HTML, CSS, Bootstrap, JavaScript
Database- MS SQL
IDE- Visual Studio 2022, Visual Studio 2019, VS Code
Photo/ Video Editing Tools- Canva, Filmora, Photoshop
MS Office- Excel, Word, PowerPoint

WORK EXPERIENCE

Vowel Digital Adworld Pvt. Ltd.   10/2021 – Till Date
Designation- Associate Software Engineer

Responsibilities:
- Design responsive websites using HTML, CSS, Bootstrap, and JavaScript.
- Implement dynamic functionalities through ASP.NET MVC and integrate MS SQL for data management.
- Manage deployment and publishing of final code to servers using FileZilla.
- Collaborate with clients to gather requirements and create detailed project documentation.
- Maintain existing websites and enhance functionalities based on client feedback and evolving requirements.
- Create visually appealing banners using photo editing tools such as Canva, Photoshop, and Picasa.
- Produce high-quality videos using video editing software like Filmora for promotional and content purposes.

Project Undertaken:

1. The Neeraj Cancer Healing (Hospital Website)   **www.theneerajcancerhealing.com**

   Working Environment: HTML, CSS, Bootstrap, JS, ASP.NET MVC, Visual Studio 2019
   Role & Responsibilities:
   - Collaborate with clients to gather and define project requirements.
   - Design and develop SEO-optimized static websites tailored to client specifications.
   - Implement additional functionalities, such as email integration and "read more" features, based on client needs.

2. Vowel Digital (Digital Marketing Company Website)   **https://www.voweldigital.in**

   Working Environment: HTML, CSS, Bootstrap, JS, ASP.NET MVC, Visual Studio 2019
   Role & Responsibilities:
   - Design and implement SEO-optimized static websites in line with client requirements.
   - Integrate additional functionalities such as email sending capabilities and WhatsApp plugins to enhance user engagement and functionality.

3. Digi Vibes (Software Company website)   https://www.digivibes.co.in

Working Environment: HTML, CSS, Bootstrap, JS, ASP.NET MVC, Visual Studio 2019
Role & Responsibilities:

- Design and develop static website aligned with client specifications.
- Implement additional features, such as enquiry forms, to enhance user interaction and lead generation.

4. Osho Tirth (Devotional Website)   https://oshokuchwada.solversolutiongroup.com

Working Environment: HTML, CSS, Bootstrap, JS, ASP.NET MVC, Visual Studio 2019
Role & Responsibilities:

- Design and develop static websites incorporating multi-language functionality to meet client specifications and enhance accessibility for diverse user groups.

5. Bulky Book (Wholesale Book Website)   https://github.com/srbsri/Bulky_MVC

Working Environment: ASP.NET Core 8, C#, EF Core, MS SQL, Bootstrap, Visual Studio 2022
Role & Responsibilities:

- Currently developing a dynamic website using .NET Core 8, incorporating a range of advanced functionalities. The project is 60% complete, with finalization anticipated soon.
